Saqib Manzoor, A source for getting your Website Development, Search Engine Optimization, Digital Marketing, Search Engine Marketing, Video Editing and Graphic Designing projects. Saqib did specialization in Google Planner Keywords, Google AdWords, Google AdSense, WordPress, Hosting Management, Graphic and Video Advertisement.

Work History ⋯

I'm a freelance web designer and Developer in KPK, Pakistan. I have been in the website designing industry since last 7 years and have designed various websites for my clients in Pak, USA, Europe and throughout the world.

I offer a potential employer a high level of energy, enthusiasm and sense of commitment to my employer. My education And firsthand experience have honed my skills and prepared me to make a significant contribution to an organization involved in web development and graphic design.

I am very effective as a communicator and am able to work either on my own or as part of a team. On the basis of my good communications skills I was elected as the student representative at college that enhanced my negotiation and presentation skills more. I have a wide range of technical skills and have a confidence to communicate in a simple form.

I am able to work with clients Worldwide, as communication can be achieved by phone or email.
I have a number of services that will reinvigorate your business. If you are looking for a professional creative web design or full website development services, then I can help you. As a professional freelance web designer.

I offer a wide range of services including website design, redesign, logo and video commercials for your company. Your site will be ready a week prior to your launch date, so you can live with it for a while and run a fine-toothed comb over it. On deadline and on budget, I'll launch your site when you are 100% satisfied with it.

I have designed & developed a wide range of websites using xHTML, CSS, PHP, and MySQL, WordPress, Drupal, Mybb, PhpBB, Social Engine for startup companies and small businesses.

I have nine years Experiences of professional websites development. I can create Cool and amazing websites for your business, industries, community, or portfolio on reliable rates.

I am a specialist in creating usable designs for the web with a professional approach and convert them into HTML/CSS & WordPress Themes that adapt to the latest web standards & trends.

My knowledge supported by many years of experience enables me to come up with efficient and useful solutions. I can transform your ideas into reality, check out my work and discuss your project.

I can handle challenging video editing projects and I always to do the best possible job for my clients, regardless of the nature of the project. Heaving a decade of work experience with Adobe Premier and other A/V software's.

I love to put together totally awesome videos. I am technically proficient and skillful, always try to give my 100% in order to get the work done perfectly. So what are you waiting for?

I can add impressive applications to be engaged with customers-perfect for displaying videos, photos or products on your site.
Blog about your company right on your site, see what customers are writing about you and more. You can visit the recommended Premium and Open Source Applications, and hosting from my side.

Upwork Skill Certification - Graphic Design
Upwork

Graphic Design   Graphic Design

Certified talent demonstrate proficiency in graphic design through portfolio reviews which look for stellar layouts, a distinctive style, and clear visual concepts. Their work showcases the use of typography, photography, and illustration to effectively communicate ideas.

The portfolio reviews were conducted by a panel of 2 or more graphic design experts who evaluate sample work based on creativity and technical aptitude for current industry-standard design programs. **less**
